

September 2020 COPING WITH COVID:

A webinar series on COVID issues and stressors

Mental Health America of the Heartland is presenting mental health webinars addressing COVID issues: stressors that increase depression and suicide risk, including isolation, drug and alcohol use, unhealthful eating and sleeping, lack of hope for the future, loss of a loved one and economic loss. These webinars are designed for the general public and community. The one-hour sessions will be repeated over the next few months. Included is a Question and Answer session, with post session availability with staff and providers to address individual issues, provide resources and referrals. See the listing of webinars below to register.

Staying Social While Social Distancing

Wed., September 9, 2020: 6:30-7:30 p.m.

Zoom Webinar

With the onset of COVID-19 , we have been asked to practice social distancing to prevent the spread of this serious disease. Social distancing doesn't mean cutting yourself off from the world. This webinar will provide a variety of engaging, creative activities for your friends, co-workers and family still stay connected. Learn how to be resourceful with strategies and tools to instantly connect with everyone without risking exposure.
